

The electrical components contained in this package can be damaged by static electrical charges. Please observe the following precautions:

- Before touching any part of the system or any of its components, discharge your body's electrostatic charge by touching a grounded metal surface.
- Before opening the protective bag, discharge its electrostatic charge by touching it to a grounded metal surface.
- Do not remove the electrical component from its anti-static bag until you are ready to install it.
- Do not lay an electrical component on top of its protective bag (only the inside is protected).
- Handle electrical components by the edges and metal mounting brackets. Avoid touching the electrical components or the edge connectors.
- Keep electrical components away from plastic, vinyl, styrofoam, furs and cardboard.
- Wear a grounding wrist strap throughout the installation procedure, if one is available.
